ELEVATING 3,500 BUSINESSES WORLDWIDE THROUGH SMART APPS FOR BUSINESS CENTRAL

ShipIT 365 is your All-in-one Business Central transport solution

Traditionally, transportation in Business Central requires either costly custom setups or slow, error-prone external platforms. ShipIT 365 integrates with carrier portals, allowing you to add your preferred carriers. It automatically creates a transport order with all relevant data. After selecting 'book & print,' the data is sent to the portal and then to the carrier, with shipping labels and track-and-trace info appearing in Business Central.

ShipIT 365 is also available on Tasklet Factory and Mobile NAV, allowing you to book and print shipments and labels directly from a mobile device.
